Sub: GROW MORE FOOD - Green Manure Udipi Taluk Kukkehalli Village - S.No. 124/1 (Portion) - Leasing of land for the Cultivation of green manure- proposals - Report.

****

I submit herewith the petition of the The Canara Land Investments Ltd., Udipi requesting grant of lands for the purpose of growing green manure leaves in the village of Kukkehalli of Udipi Taluk. It is running a big farm in Cherkadi village of Udipi Taluk, comprising 41.52 acres of wet and 22,84 acres of dry lands. The lands are irrigated with the aid of pumps and fertilizers are also used. It is also maintaining a large number of plough cattle. Out of the total extent of 22.84 acres of dry lands, 19 acres have been reserved for growing green manure and it is reported that the green manure got from these lands is not sufficient for the cultivation of the paddy fields. It is reported that there are no assessed waste lands in Cherkadi village from where the requirements of green manure leaves could be met. So, it has applied for the lease of some Lands in the neighbouring village of Kukkehalli from where the requirements of green manure leaves could be met. The villagers of Kukkehalli however object to the removal of green manure leaves from their village. Such objections are raised generally by the local residents when any outsider desire to remove manure leaves from their area. The objections are mere frivolous and they deserve no consideration.

2. The lands proposed to be granted in this case under cowle have been sub divided as S.No. 124/1B and 124/1C in the sketch enclosed. The total extent is about 2 acres. S.No. 124/1 is a compact block measuring 870.94 acres. The land is not fit for any big colonisation scheme. It was once proposed for the cattle salvage farm and the District Veterinary Officer

and the District Agricultural Officer who inspected it found it unsuitable. According to para 6 of G.O.No. 1523 Revenue Department dated 11--6--49, compact blocks should be assigned only to co-operative societies consisting of persons mentioned in para 2 of the G.O. except in cases where a departure from it is principal is permitted by the Government. In this case the applicant is a registered body registered under the Indian Companies Act and is not a co-operative society as contemplated in the G.O.

3. The farm has undertaken to raise quick growing green manure species like Gliricidia, Calathoda etc., If the supply of manure leaves is stabilised, the farm will be in a position to grow food crops also on the dry lands now under its possession. The farm adopts modern methods of farming and it deserves encouragement. As this proposal is likely to increase the extent under food crops and also increase the yield of paddy I recommed that the restriction on the assignment of compact blocks to individuals may be relaxed so that the Farm can be granted these lands on cowle.

2. The connected records of enquiry pages 1 to 60 are enclosed for perusal and return.
